TAKE YOUR EYE CLINIC PAPERLESS!

OPAS is the perfect solution for an eye clinic/hospital. All the data is stored on the cloud, keeping it safe. Since OPAS works on logins, data security is becoming a non-issue offering data access based on the role of the person – Receptionist, Doctor, Nurse etc.

Retrieve-ability of data stored on the cloud is only a matter of few clicks and the data will appear on the screen within seconds.

Some References

Some References

Dr. Imade Priscilla

Optometrist - Modern Eye Clinic, Lagos State

I would strongly recommend OPAS to any clinic, I once used a software in the past that crashed in less than a year. I have been using OPAS since 2019 and no issues at all.

Dr. Osayem Otabor-Olubor

Ophthalmologist - SightCare Specialist Eye Centre, Edo State

I was looking for a management software for my eye clinic. a friend recommended OPAS to me. I would like to say it is very easy to use, user-friendly functionality and fast.

Dr. Mary Joseph

Optometrist - Jemos Eye Clinic, Ondo State

OPAS makes attending to patient fast and seamless I don't need to do much typing with just clicks and picks I am able to record Patient Examination Procedure results

Dr. Yefsy Richard

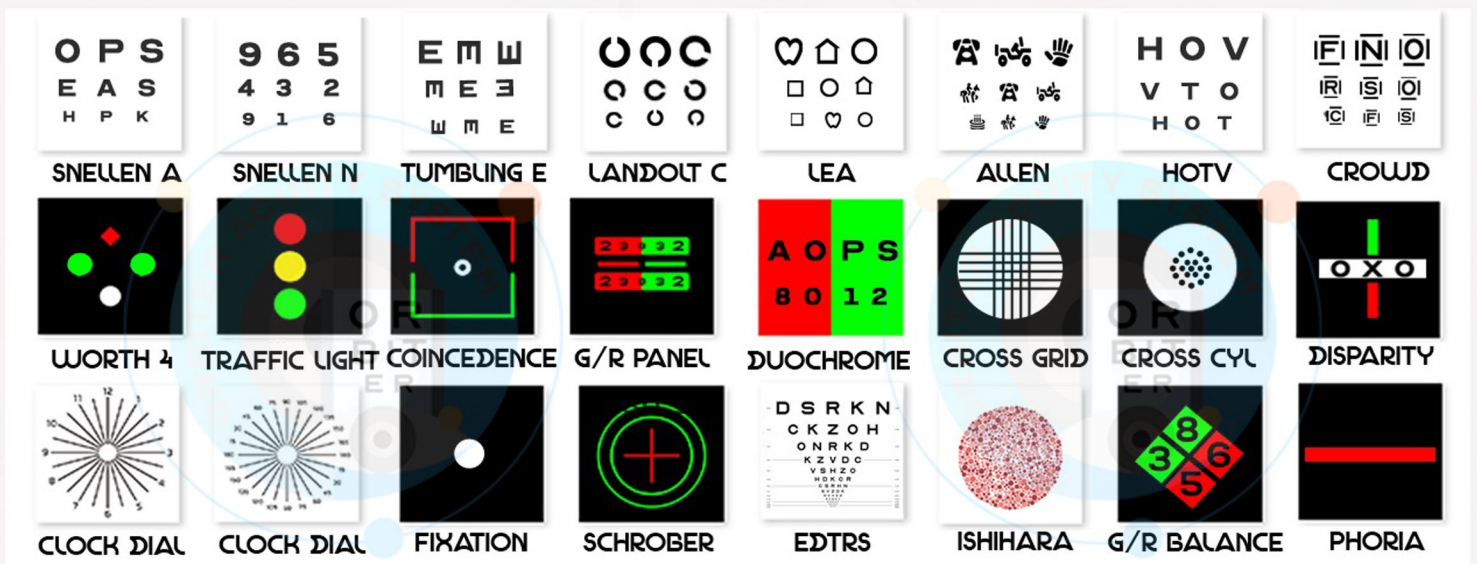

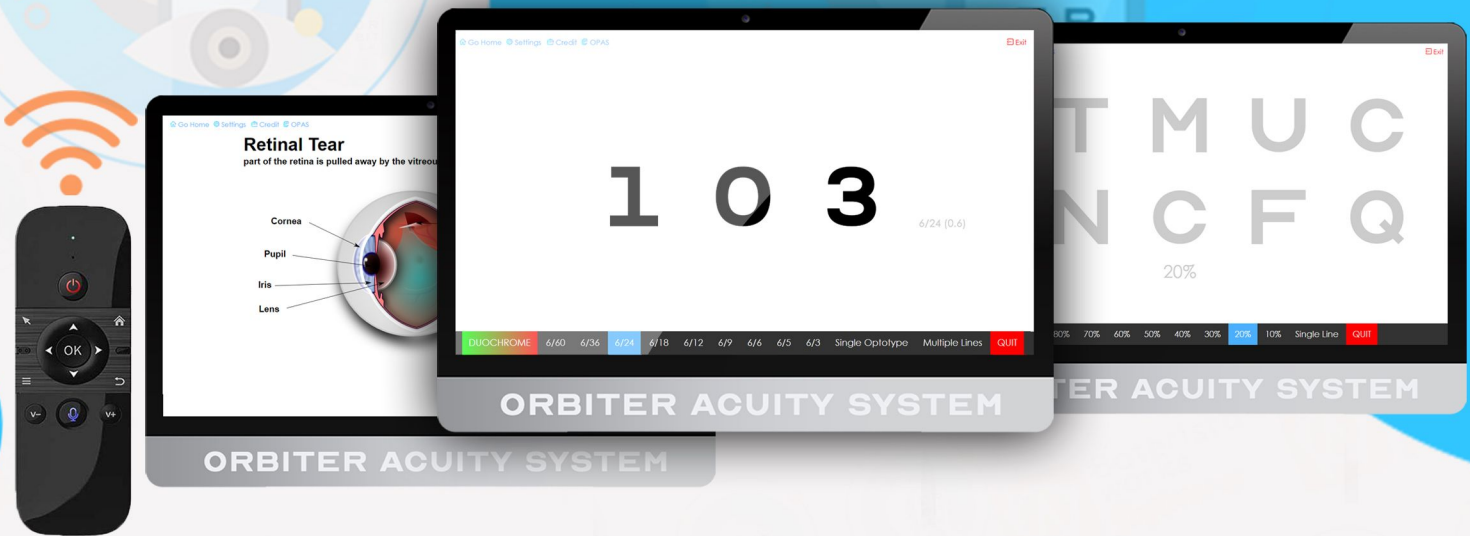

Optometrist - Vision24 Eye Clinic, Abuja

I never thought I could find a software that actually works and has such functionalities in Nigeria
